| The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply | | | | | | | |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | | | |

U.S. Patent and Trademark Office PTOL-326 (Rev. 1-04) Application/Control Number: 10/774,249

Art Unit: 3723

DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. Claims 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - a. Claim 13 has been amended to recite "and being . . the conduit" in lines 3&4. It is not clear this language directly or indirectly to the stalinzing means or guide means of both.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 13-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Geyser (382257).

Geyser discloses an apparatus having a rounded head (fig.2) and guide means, a stabilizing skirt or stabilizing means (8), an attachment mechanism (fig.2 and (9&10&x)) and/or buffering means. In regard to the buffering means this limitation is being read not to include the shock absorbing means which in the specification incidentally defines the buffering means. The term feathered is defined as to what the specific structure is supposed to be so the art will read on it.

The method is merely the natural use of the apparatus as claimed.

Application/Control Number: 10/774,249 Page 3

Art Unit: 3723

Allowable Subject Matter

4. Claims 1-8 and 10-12 are allowed.

Response to Arguments

5. Applicant's arguments filed 2/22/05 have been fully considered but they are not persuasive.

- 6. Applicant's arguments with respect to claims 13-18 have been considered but are moot in view of the new ground(s) of rejection.
 - b. Claim 13 has been amended to recite "and being . . the conduit" in lines 3&4. It is not clear this language directly or indirectly to the stalinzing means or guide means of both. The remarks seem to suggest the stabilizing means is being further limited but the claim is not clearly stating that is only the stabilizing means being modified. The arguments are referring to differences in shape but this is not what is being claimed. Therefore the arguments are off point for that reason and also because of the 112 issues.
- 7. Applicant's states that the fish tape is pushed.
 - c. The applicant's drawings disclosed a fish tape being pulled. The applicant may choose to state that a fish tape is being pushed to as a matter of view point or word choice but the prior art is doing it same way. The words are different but both the prior art and instant invention show the line connected at the same place so the function will be the same but word choice can be different.

Conclusion

Application/Control Number: 10/774,249 Page 4

Art Unit: 3723

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEE D WILSON whose telephone number is 571-272-4499. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JOSEPH HAIL can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
